A Childs Life Foundation-Nepal, would like to thank you for your entry. We have 38 orphans that will benefit from this fundraiser. They became orphans when the Maoists killed their parents in the countryside during a 12 year incursion. They are wonderful children who attend school through high school and hopefully college when we can afford it. We are also helping Roshna who is a nursing student in Nepal—you can find her story at www.doebay.net/warmhearts

We appreciate your help in hard economic times. America is still the land of hope and possibility. Nepal is one of the poorest Asian countries with no real help from within. We'd like to help change that.

Many thanks to you for your time and caring.

Many blessings,

Namaste'

Shoshana Avree,

executive director

All proceeds go to the children and their life in Nepal.
